PATHS

plus more inside...

WE CAN PROVIDE: COMPUTER DESIGN ...

Computer generated design from a photograph of your garden to give you a preview of the end result.

We can also build a complete computer generated design of your garden as a live walkthrough, displayed to you on a large laptop, and give you the opportunity to change design and materials as you view, giving you control before the project even starts.

PATIO

A Patio can turn an underused and untidy part of your garden into a functional eye-catching addition to your home.

PATHS

Add Paths to access; flower beds, clothes lines, that awkward hedge or simply for decorative reasons.

DRIVEWAY

A new Driveway can add character, value to your property, create entrance and exit drives, turning circles and extra parking. All in your choice of materials.

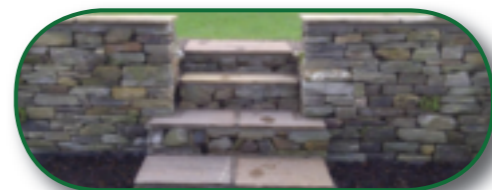

DECKING

Decking can give your garden a rustic feeling or even add a modern touch and add extra usable space to sloping or uneven terrain.

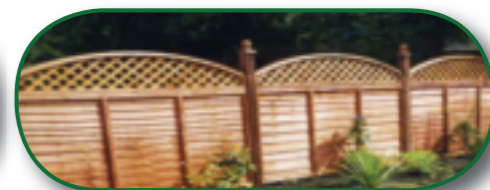

Renew or add
TURF

WALLS

Boundry, Retaining, Decorative

Frame it with... FENCING

PERGOLAS SEATING PONDS STATUES & MORE

Tree Care is our sister company, and offer the following services...
For Trees, Shrubs and Hedges...

LOPPING Removal of diseased or problem limbs.

Pruning To reduce size, remove crossed, diseased and shaded branches and increase yield.

Felling Diseased, dangerous or unwanted trees sectioned and removed.

TOPPING To reduce wind or snow damage or clear telephone or electricity cables, etc.

Pollarding Cut back to main trunk on suitable trees.

A beautiful bespoke resin Driveway/Path gives you another option

- Hard wearing
- Low maintenance
- Anti-slip
- Unlimited colour range
- Seamless surface

We can design and build to new areas OR use existing Surfaces as a base (concrete, tarmac, etc)

We can also use unlimited colours and textures to create stunning designs.

We are specialists in Paving Cleaning & Sealing (Driveways, Patios, Paths etc)

Using a very high pressure cleaning machine to remove grime, moss lichen and top layer of jointing sand (Weeds and such grow in this top layer) we then replace the sand with new clean sand, leaving your paving revived and as new looking.

For the ultimate in paving protection we can seal your paving with **RESIBLOCK** ultra sealer which penetrates and seals the paving, making it waterproof and stain proof from (Oil, Diesel etc) But more importantly it penetrates the top layer of sand and binds the granules together keeping weeds, moss, lichen and grime at bay it also makes your paving much more structurally sound.

RESIBLOCK is Europe's number one and is recognised as such by independent paving experts such as AJ MCCORMACK. (<http://www.pavingexpert.com/sealants.htm>)

We are registered contractors for **RESIBLOCK** and can be found on their website.
